IMMERSIVE EDUCATION ACADEMY

Immersive Education Academy is an online English platform and content provider. Programs designed by Immersive Education Academy specialize in assessing English language skills with a focus on listening and speaking ability.

In partnership with:

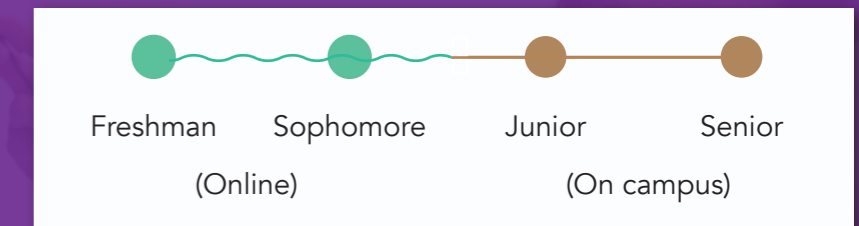

萬里行教育學院
IMMERSIVE EDUCATION ACADEMY

PATHWAY PROGRAM A

Students who are admitted into Western Illinois University will take their freshman and sophomore years online. Afterwards students will choose their majors and finish their junior and senior years on campus.

The purpose of this Bachelor's degree program is to give students the following advantages:

AFFORDABILITY

Students pay 34% less tuition for a Bachelor's degree. US\$66,000 compared to US\$100,000.

FLEXIBILITY

Students experience a smooth transition from a highly regimented local education system to an intellectually stimulating and well-rounded western education system. University credits can be transferred to accepting peer Universities. While taking online courses, students will still have the support and advice from their family and friends.

SMOOTH TRANSITION

Students have time to prepare for life on campus. They can learn to focus on their studies with the help of family and friends. They also have time to prepare their English communication skills.

The purpose of the first two years online is to give students time to catch up their English communication skills through Immersive Education Academy, even if they are behind.
